UI PROTOTYPING

DRL Tracker

1. Student Dashboard

Purpose: Serves as the overview dashboard displayed when a Student logs into the system, helping students quickly grasp their training points status and important notifications for the current semester.

Key Components:

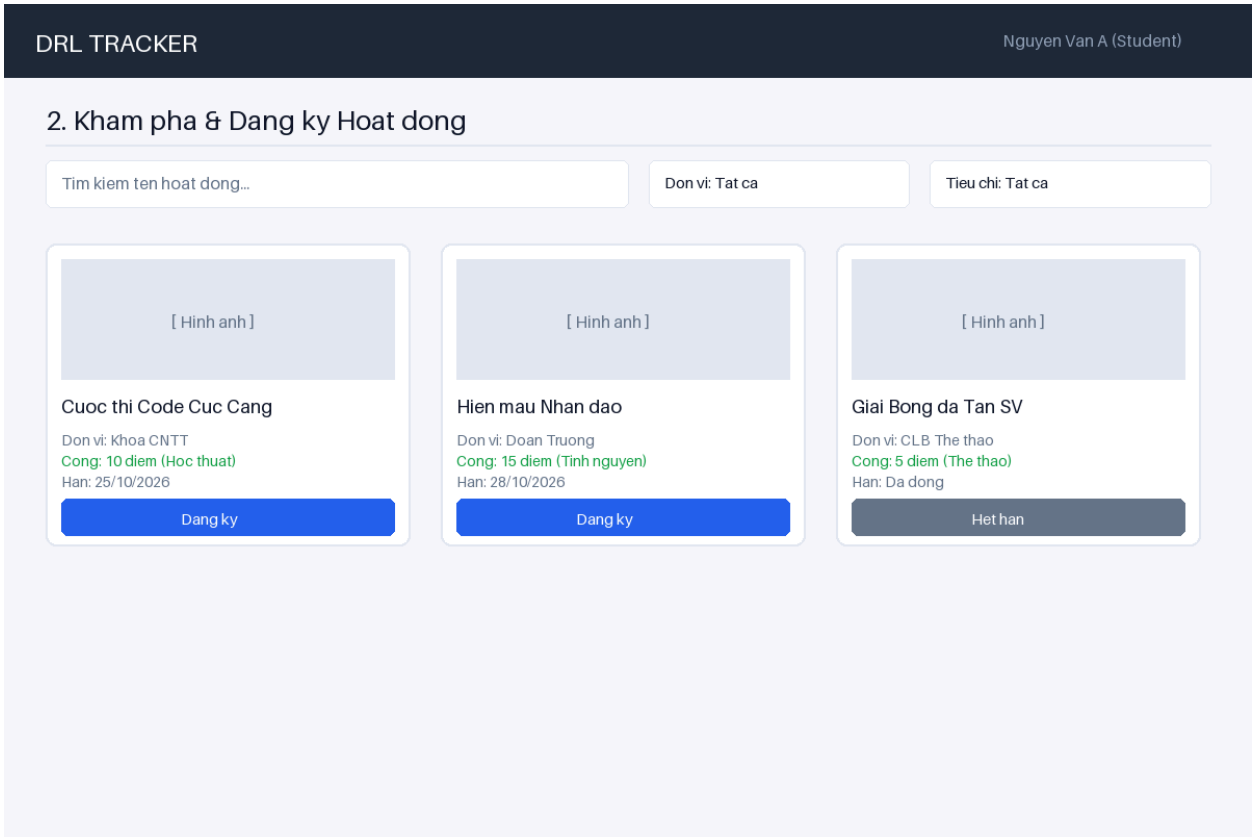

Navigation Bar (Header): Displays the system name "DRL Tracker" and the profile information of the currently logged-in student.

Score Chart: Visualizes score distribution across regulation criteria by comparing maximum allowed scores against current predicted scores for each category.

Notifications & Reminders: Displays real-time alerts such as upcoming event reminders, newly approved evidence, or rejected evidence requiring updates/complaints.

Upcoming Activities: Lists events/activities that the student has registered to attend, along with specific dates/times.

2. Explore and Register

Purpose: Provides a space for Students to search, view details, and register for extracurricular activities launched by the university or organizing units.

Key Components:

Search & Filters: Keyword search bar combined with filters by *Organizing Unit* (Faculty, Youth Union, Clubs, etc.) and *Training Criteria* (Academic, Volunteer, Sports, etc.) to help students easily find suitable activities.

Activity Cards Grid: Each activity is displayed in a visual card format including:

Activity title and thumbnail image/banner.

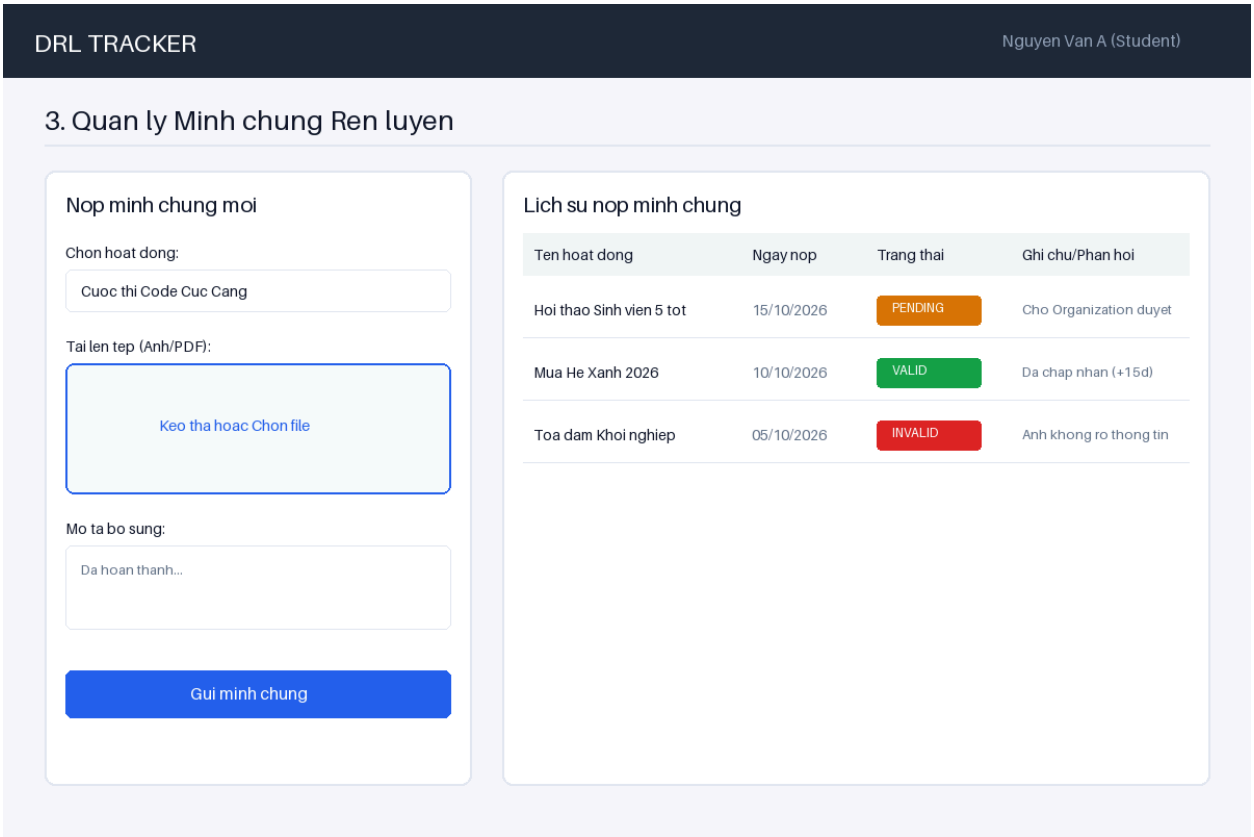

Responsible organizing unit.

Corresponding training points and awarded criterion.

Registration deadline.

Action Buttons: "Register" button (Primary blue) for open registration events, and a disabled "Expired" button for closed events.

3. Evidence management

Purpose: Allows students to proactively submit evidence (images, certificates, confirm letters) after participating in activities and track the processing status by the organizing units.

Key Components:

Evidence Submission Form (Left Panel):

Dropdown menu to select the participated activity.

File upload area supporting drag & drop for image formats (JPG, PNG) or PDF files.

Additional description/note input field if needed.

Submit button to upload evidence to the system.

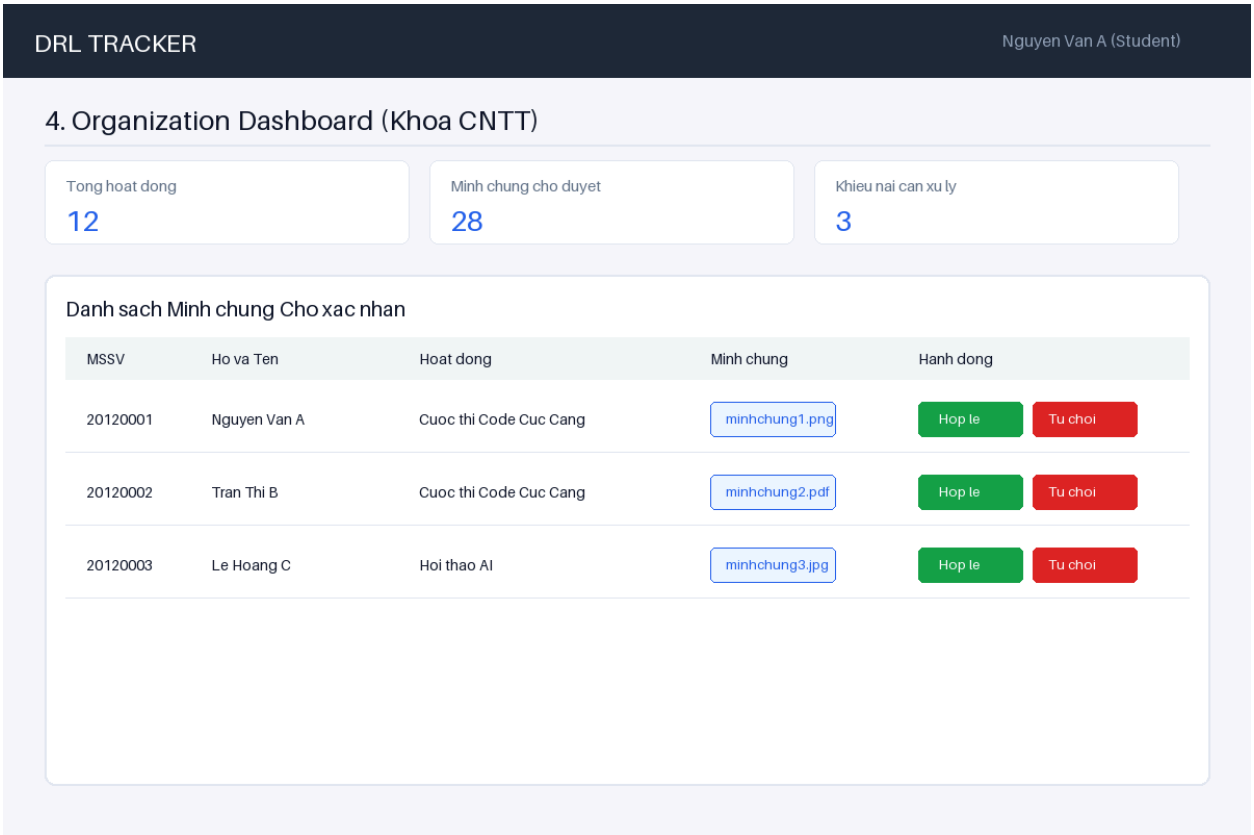

Evidence History & Status (Right Panel): A detailed summary table of all evidence submissions with 3 standardized status levels:

`PENDING`: Newly submitted evidence, awaiting cross checking by the Organization.

`VALID`: Sufficient evidence provided, points added to the Predicted Score.

`INVALID`: Evidence rejected, accompanied by an explanation from the organizers (e.g., *Blurry image with unclear information*) so students can resubmit or appeal.

4. Organization Dashboard

Purpose: Designed for Organization accounts (Faculties, Clubs, Event Organizers) to manage activities under their responsibility, perform cross-checks, and approve or reject evidence submitted by students.

Key Components:

Quick Metrics: Counter cards showing total managed activities, pending evidence count, and complaint requests needing resolution.

Pending Verification Table: A detailed list of student evidence submissions belonging to the unit's activities:

Information columns: Student ID, Full Name, and corresponding Activity Name.

View Evidence column: "View File" button allowing staff to open uploaded images/documents to compare against the actual participant list.

Action column: Two quick interactive buttons, "✓ Valid" (confirm) or "✗ Reject" (with reason), providing instant feedback to the student's account.
